The Motorola Solutions Foundation

The Fund is offering grants to support organizations creating safer cities and thriving communities. Here are the key details:

Grant Focus Areas:

- Technology and Engineering Education: Engaging students in hands-on activities like computer science, coding, and robotics, and providing scholarships and workforce placement for under-resourced groups.

- First Responder Programming: Supporting mental wellness, stress management, safety preparedness, and leadership development for first responders and their families.

- Blended Programs: Combining technology and engineering education with first responder support.

Eligibility and Priorities:

- Organizations must demonstrate measurable change through impact reporting.

- Priority given to under-reserved populations, robust partnerships, strong financial health, and data-driven evaluation methods.

Grant request maximum: $50,000.

Application Process:

- Inquiry Form Deadline: January 22, 2026

- Application Deadline: April 20, 2026

- Award Notification: August 2026
